

Over the past few weeks the students have been planning for CCA's second cook book. This cook book will be a full production of students, staff, and boards' favorite recipes. The students will be typing up the recipes, organizing the layout of the book, marketing and selling, and completing their published cook book.

This past week students were to bring in three favorite recipes. Some students have forgotten, so remind them to bring them in. We are hoping to have our title finalized by next week, when the board gets there vote in. Please stay tuned.

I want to encourage you to check out your child's grade for computers. There are a few missing assignments that are left blank in the grade book. The wordle assignment is one we are working on in class and just need extra time on. As for the empty slots for the recipe grade, I am waiting until this Thursday to enter those grades in. With last weeks Lock down it did affect a few classes and I want to make sure to give the students a chance to get there assignments in.

In the weeks to come we will primarily be working on the cook book. I am very excited about this project because the students are able to practice typing skills for real life and not just drills. I do want to communicate that I will need some volunteers to come in and help with some extra typing, copying, collating, binding, etc. So if you are interested please contact me via email [angelavroom@re3j.com](mailto:angelavroom@re3j.com)

The computer lab now has its promethean board up and running and we have been using it in class. I am looking forward to seeing all the possibilities this tool will give us to learn more about technology!

Thank you,

Mrs. Vroom
