Volume 2, Issue 4

## Ms. Reyes's Fish Pond

### Math

Wednesday we will be working on writing the numbers 0, 6, 8 and 9.

Friday we will work on ordering sets from smallest to largest, identifying most and fewest and ordering numbers from least to greatest.

We will continue working on learning left and right and keeping up on our weather pictograph.

Animal habitats are our fun times in Science.

### History

We will be learning the cardinal directions on a map by using a map to maneuver around the playground. We will take an assessment to see if we know our directions as well.

### Science

We will be talking and coloring animal habitats and learning what a habitat is and what makes up a habitat for different animals.

The animal showcase should be in about three weeks which would be the 30<sup>th</sup> of September. If you can bring in your pet that day, please let me know. I will be sending a letter home probably next week about it so keep an eye out ☺

### Riggs/Writing

We did our first quiz on the letters a, c, d and f. Most students did well. We will test again both Wednesday and Friday.

We will keep reviewing a, c, d, f, g, o, s and qu. We will add b, e, h and i.

Starting next week I will be dividing the students up into groups depending on how they do on the quizzes. I will let you know which group your student is in so you will know which letters to concentrate on.

## This Week's Assignments

Math both Wednesday and Friday.

Reading 20 minutes each night. Make sure to mark off on your travel pass as well as filling out your reading log.

Review cardinal directions with your students as you're driving. I.E. Where are the mountains? (west) Which side of the street is our house?

## This Week's Highlights

### Wednesday

Reviewing nouns. Learning our cardinal directions

### Friday

Learning about animal habitats and reviewing carnivore, herbivore and omnivore. Can we identify smallest and largest? Least and most?

## Reminders to Students

- Read 20 minutes each night.
- Review our Riggs a, c, d and f.

## Upcoming Events

## Thank You's!

Thank you to Mrs. Dowdy for having the Riggs training class! Hope you all learned a lot! ☺

Thank you to Mr. Hopp for spending the day with us on Friday.

Thank you to Ms. Iseman for filling in for Mrs. F last week.
