GRAPHING PROJECT

Thursday the students will graph the number of colors of M & M's in a bag. This will include a bar, line and circle graph. They will be given a rubric telling them what will be included in the project and how it will be graded. Fractions, decimals and percents are a part of the project. Neatness is important.

MAKEUP WORK

Any student needing to make up tests or other work will work on it in class Tuesday.

Assignments for this week:

All Grades – Review Worksheets and Graphing Project

8th Grade

Math Minutes 55 - 58

Alg –
